

MANAGE YOUR WORLD

Connect. Monitor. Simplify

ViControl

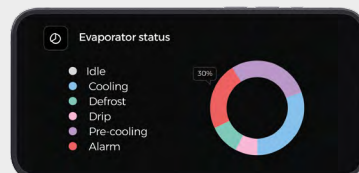

**IIoT platform for
total control of your
installations, from
anywhere**

**CENTRALIZED CONTROL
A SINGLE INTERFACE**

**NO MORE "CLOSED"
APPS, ONLY ONE
SOLUTION**

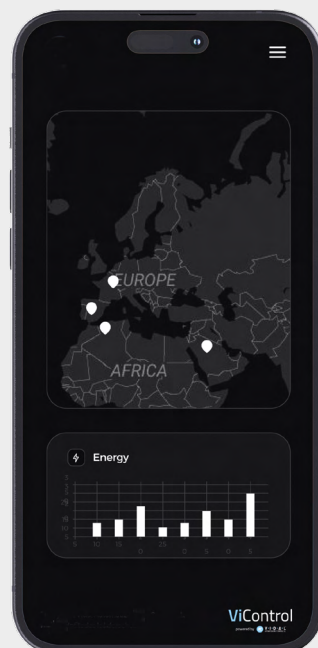

**OPEN TO ANY BRAND
OF CONTROLS/DEVICES**

**OPEN SOURCE CODE
SCALABLE**

**SOLVE REMOTELY OR
GO WITH THE SOLUTION
NOW**

**NO MORE BLIND
JOURNEY**

The **solution** for all industrial sectors

Control all your **installations** from a **single platform**

Centralize, automate and make decisions with real data, all from one place

AND ANALYSIS

ViControl

Total control, zero complications

Operational cost reduction

Remote monitoring and early detection reduce costs and optimize equipment usage.

Greater energy efficiency

Real-time data optimizes energy consumption and promotes sustainability.

Improved decision making

Access to accurate and real time data facilitates informed decisions and continuous improvement of industrial processes.

Scalability and adaptability

Adaptation and integration with existing systems, expanding functionalities as needed.

Plans that adapt to each installation

WHAT PLAN DO I NEED?

Create a simulation of your installation in landing.vidal-ac.es

Basic

Annual -15% 122,40€

104,40€

Month **10,20€**

- ✓ 6 connected devices
- ✓ 6 storage variables per device
- ✓ Mobile app access
- ✓ 30 days of data persistence
- ✓ Maintenance module
- ✓ Reports module
- ✓ Updates (According to development schedule)

Standard

Annual -15% 216€

183,60€

Month **18€**

- ✓ 12 connected devices
- ✓ 8 storage variables per device
- ✓ Mobile app access
- ✓ 30 days of data persistence
- ✓ Maintenance module
- ✓ Reports module
- ✓ Updates (According to development schedule)

Premium

Annual -15% 390€

331,50€

Month **32,50€**

- ✓ 20 connected devices
- ✓ 12 storage variables per device
- ✓ Mobile app access
- ✓ 30 days of data persistence
- ✓ Maintenance module
- ✓ Reports module
- ✓ Updates (According to development schedule)

TECHNICAL SPECIFICATIONS

Material

PVC

Weight

1150 gr.

Size

220 x 168 x 106 mm.

Location

Direct wall mounting IP55

Ports

Ethernet, RS-485, RS-232 and optional GPS

Global connectivity

4G LTE Cat M1, Cat NB2, Cat NB1

Integrated firewall

Preconfigured to isolate installation equipment from the internet

Industrial communications

Modbus RTU (RS232, RS485), TCP (Ethernet)

Optional GPS

GLONASS, BeiDou, Galileo, and QZSS

Power supply

230V with differential protection

*ViControl requires our gateway (900€ vat not included)

Connect ViControl to your equipment

ViControl requires our gateway (900€ vat not included)

Easy installation
Full monitoring
Ready for Industry 4.0

Self-Instalable

Advanced autonomous device

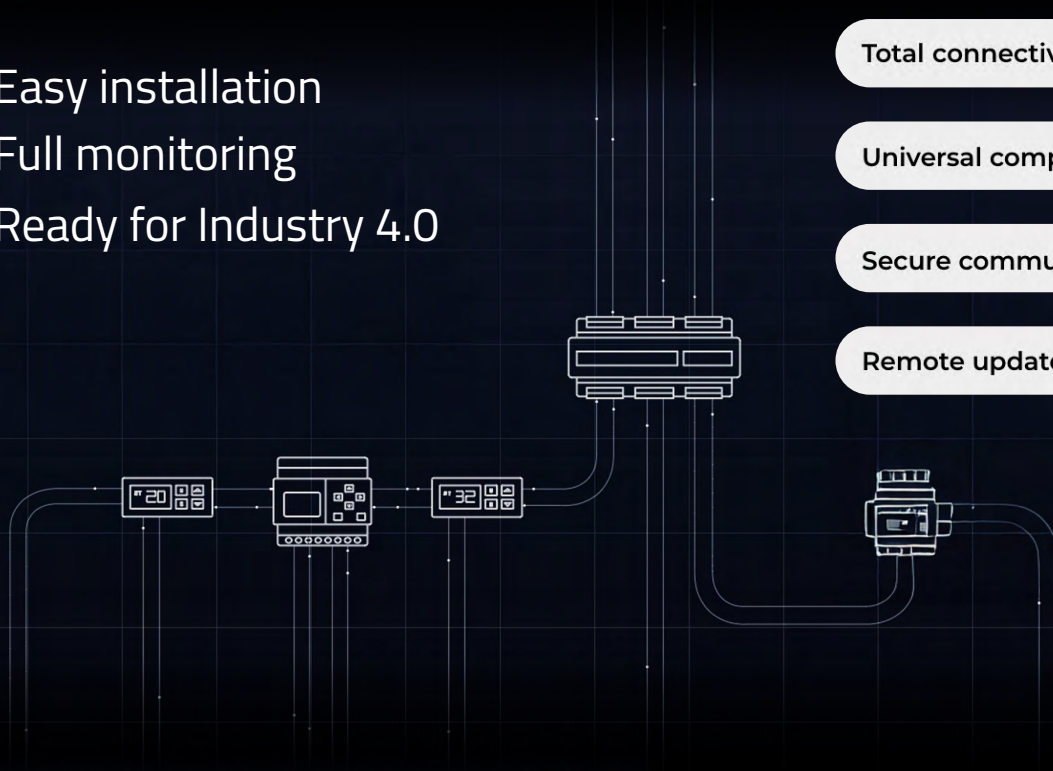

Centralized management

Total connectivity and unified view

Universal compatibility

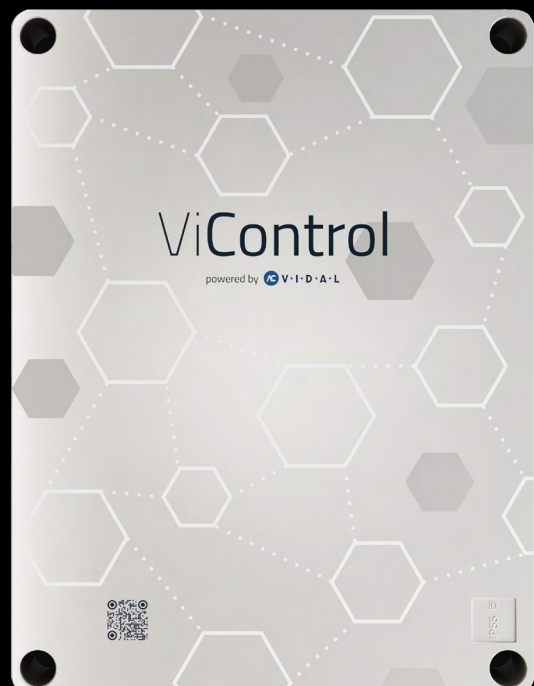

Secure communication

Remote updates (OTA)

Buy, Connect, Register and Go!

- 1 Online registration of the received gateway
- 2 Basic installation setup
- 3 Selections of available gateways
- 4 Selections of modbus RTU / RCP devices
- 5 Assigning names and addresses to the devices
- 6 Final review and validation of the configuration

With the guarantee of

Over 20 years of innovation

Our history has been written by the people who have transformed our company.
Professionals, customers and partners who have placed their trust in us.

We specialise in electrical panels for industrial, commercial and process refrigeration.

We are leaders in industrial technology with global experience in electrification,
automation, control and digitalisation.
